

**PUBLIC SERVICE COMMITTEE MEETING
THURSDAY, SEPTEMBER 18, 2014
6:30 PM**

CHAIRMAN McLAUGHLIN HAS CALLED A PUBLIC SERVICE COMMITTEE MEETING FOR **THURSDAY, SEPTEMBER 18, 2014** AT **6:30 PM** IN THE EUCLID MUNICIPAL CENTER COUNCIL CHAMBER.

AGENDA

A presentation by CH2MHill on the community benefits of an integrated Green and Gray approach to our mandated sewer improvement projects.

Ranked 1st in Engineering News-Record's Top 200 Environmental Firms Sourcebook, CH2MHILL's presentation focuses on the financial value of reevaluating the current Long Term Control Plan through the latest developments in green/gray technologies.

With Euclid's clay soils and dense neighborhoods, can such an integrated approach work? Can it save the rate payers money? These are multi-million dollar questions. Finding out those answers begins this Thursday at 6:30pm in Euclid Council Chambers.
