WPA to Improve Legion Camp
Heckman Announces Work Will Start Aug. 15 in North Chagrin Reservation

Construction of new facilities and installation of equipment at the American Legion children's camp in the North Chagrin Reservation of the Metropolitan park system by WPA will be started Aug. 15, R. E. Heckman, director of the North Dakota No. 34 camp announced today.

The federal grant is expected to be augmented by state and local contributions, which will provide accurate figures for equipment and work to be performed.

Kiwanes Club to Picnic at Euliel Bach
The second party of the Olstein division of the International Kiwanis club will be held at Euliel Bach, Sunday afternoon.

The children will be comprised of 16 to 21 children, including the camp of jamie of the WPA work.

Room for Several Kitchens
In the kitchen area, there will be seven rooms. The largest room will be the kitchen, which will be used for the preparation of meals. The other rooms will be used for the preparation of meals and for the storage of food.

The camp committee received a large number of requests for underprivileged children, and a large number of campers have been accepted. The camp will be an underprivileged children's camp, and it will be open to all children who meet the requirements.

**Today’s Garden Gnome—Covered with Violets**

By DEAN MILLISDAY

The GORGONITE stone garage
after it has been sprayed with violets... is one of the most unusual and striking of its kind. The hardware manufacturer who first conceived the idea of covering the garage with violets must have been a gardener himself, for he chose a flower that would be a delight to the eye and a source of pleasure to the user.

**Removing the Stalk Borer**

A fly, which usually feeds on the flowers of the garden, is one of the most destructive pests of the flower bed. It lays its eggs on the stems of the plants, and the larvae that hatch from them feed on the leaves and flowers. The best way to control this pest is to pick off the flowers as soon as they are noticed, and then to destroy the larvae by digging them up and placing them in a container of water.

**Foundations Depend Upon Type of Soil**

The foundation of a building is one of the most important parts of the structure. It must be strong and sturdy, and it must be able to withstand the weight of the building and the forces of nature. The type of soil in which the foundation is built is one of the most important factors in determining its strength.

**New Unclaimed Freight**

Unclaimed freight includes goods that have been delivered to a recipient but not picked up within a specified period of time. This can happen for a variety of reasons, such as the recipient being unavailable to receive the goods, or the recipient not realizing that the goods have been delivered.

**Cook Without Heating Up The Kitchen**

In hot summer weather, warm meals are necessary for good health. With an Electric Roaster, you can cook food without heating up the kitchen! The Electric Roaster cooks the food—the 'cook' doesn’t 'cook' the food.

Naturism and Pale Pink Have Pleasing Effect

By LIBBETH

Cool, as air on a I r. breeze. That is the rule for downtoearth, down-to-earth woman picks for July and August. Light colors quietly made, and of the coolest effect. We have been saying that dark colors are definitely hot but during the warm weather it matters very preciously the costumes have to be light. The days themselves are a challenge to be contradicted this season, so as many new shoe costumes are dark—nary, brown is black. The truth of the matter is, women serve us with new costumes. It is true that what they make them look back but they do not. So the women who do let loose that little thing familiarly known as "tuxedo"—as the dark, and I, as the little tuxedo or the darker for sports, the other a shiny new shade. Nothing for the luscious, this shade. Nothing for the fitness of society. Nothing for the looks of that. The shade is soft gray gray, and the shade looks gray of gray. A simple shade is the same. Nothing for the looks of that. Nothing for the looks of that. Nothing for the looks of that.

Cults Are Scorned by Artists of Cleveland

By I. T. PRATT

It's a long step from an art school's chorus on a Puerto Rican mountain top, to a Rebuilt Church in New Orleans, or from the banks of a river in central Africa, to a sincere covered board pulp in Cleveland. Yet there are artists in every corner of the world who gather together in the name of art. The Cleveland Museum of Art is part of the tradition of American Painting from Early Times (1939-1959).

The Cleveland Museum of Art is part of the tradition of American Painting from Early Times (1939-1959). The museum is located on Euclid Avenue, near the corner of East 11th Street, and is open to the public from 10:00 a.m. to 5:00 p.m., Tuesday through Sunday.

The museum features a wide range of American art, including works by some of the most famous artists of the 20th century. Visitors can explore the museum's galleries, which are arranged by artist or movement, to see paintings, sculptures, photographs, and other works of art.

The Cleveland Museum of Art is a nonprofit organization, and relies on donations and support from the community to maintain its operations. The museum is dedicated to the appreciation and promotion of American art, and offers a variety of educational programs and events for all ages and interests.

For more information about the museum, please visit their website at www.ClevelandMuseumofArt.org.
