PARENTS OFTEN STEER CHILDREN INTO WRONG PATHS VACATIONALLY

By BLAKE CRIDER, Ph.D.

NUMBERS of children are
consulting their parents for the
fact that most children are
heading to the wrong vacation
directions. They are choosing
career paths that are not
consistent with the values
and goals of their parents.

A PROPOSITION TO SOCIALIZE

As a proposal to socialize
children into the right paths,
the following suggestions are
made:

1. Encourage children to
participate in community
service projects.
2. Provide opportunities
for children to explore
various careers.
3. Foster a strong sense of
social responsibility.

WHO WILL STOP RED CATS?

WILL Senate Vandercook's bill for a sidewalk in a mid-
deed of the road in his speech in Bay City, Mich., fall
and lid.

Industry describes its up-state stand against organization
of the International Brotherhood of Electrical Workers
as a direct manner of protecting the profits of its work.

With industry far enough ahead and have the confidences
in a leader who would bring them true and lasting benefits
such as are possible only under responsible government.

These are questions in our minds. They are ones that
must be answered by the wise and the learned of the
world. It is a determination of the worthy of the name.

We are determined to fight against special privilege for any one
and equality for all others.

We see no definite hope in Vandercook's type of leader-
ship because:

1. He has proved that he holds his ideas by his
stand on certain New Deal measures unalterably
and unchangeable.

2. He obviously cannot be controlled by the
old guard of Republicanism in his consideration of
legislation for the common welfare.

3. He does not claim to the leadership of the
people; he will not seek to lead, but to be
controlled by the people if they put him in
power. He will not lead, but follow.

4. He has not the power of leadership, but only
the power of the eloquent speech and by the
eloquent speech he can make an impression
on the people.

We hope that the senator from Michigan will continue to
oppose the New Deal measures, but may reach all the
people. His presentations hold for the country a plan for
constructive action.
