Lace Chosen for Both Formal and Tailored Clothes
Sheer, Delicate Pattern Use for Evening, Woot Daytime Mode

LACE BALLS are getting to be a habit. We had two in New York, one in Miami, Fla., and now Chicago. The very medium-sized and popular monthly magazine, "The Ladies' Home Journal," has just published a full page of illustrations of the latest in lace fashion. The magazine is published by the United States News Corporation, Inc., and is a monthly publication, containing articles on all branches of domestic art. This issue of "The Ladies' Home Journal" has just been published, and it contains many articles on the latest in lace fashion.

The Lace Art Society of America, which is an organization of lace artists, has just published a full page of illustrations of the latest in lace fashion. The society is organized to promote the study and practice of lace making. It is a non-profit organization, and its members are lace artists from all over the world. The society publishes a quarterly journal, which contains articles on lace making, as well as illustrations of the latest in lace fashion.

Prolific Garbage Collectors

EVERY so often we are reminded that unless America is made more efficient, its material welfare will be in jeopardy. We are accustomed, therefore, to the racket of the garbage collectors during our daily walks. Our streets are more often than not filled with the smell of the garbage as it is being collected. And our institutions all will go to pot.

The following is a letter written to us from Dr. Albert E. Wiggam, widely known author and lecturer on social problems:

In a talk at Springfield, Mass., Dr. Wiggam repeated what we have heard many times before, that, in the number of offsprings among the higher income groups has declined greatly, whilst in the children of the smaller income groups and from actions of the country where cultural standards are low, there has been an increase proportionately. He cites figures from the sixth annual report on vital statistics in the United States where it is shown that there is an average of two children per family, chemists and businessmen, an average of 1.6, while garbage collectors and bodekdh takes have an average of four.

We don't expect to do anything to even in the fate of repeated warnings.

The trouble is that the families in the higher income brackets are below their. They were the first, being the more intelligent, to grapple with the facts about birth control. Instead of passing the information along to the garbage men and the like, they pass it to their own well-to-do sons.

The one thing in Dr. Wiggam's talk that gives anyone any kind of encouragement is that the only solution to the problem is furnished by a proposed population by Maimai and Verma. That, at least, should be good news to Republicans.

We're Engulfed by Silence

It is the week following the November elections that we are left with by the Editor of The Eagle.

The silence that engulfs the editorial department is so unbroken and so profound that it is hard to imagine how it can be broken.

It is as though the Editor of The Eagle has been engulfed by a silence that is so deep and so profound that it is almost impossible to break it.

The thing we are most interested in at the moment is the silence that engulfs the editorial department. We are not sure what the reason is for the silence. It is hard to imagine how it can be broken.

The title of his talk was "The Eagle's Silence." It was a talk that was given by the Editor of The Eagle. It was a talk that was given by the Editor of The Eagle.

Clothes and Charm by MARILYN DEERING

I must give much of the credit for writing this article a picture of yourself—of course you are you and you would like to be. I am merely everyone of you would be willing to sign a contract to spend all the time required each day week month to make yourself look just like the picture. Yet, that is entirely possible.

To be beautiful is to start ahead of "normal," to being someone of a position with you and all your friends. It would not be too easy for any of your part. In style to achieve beauty, you must spend much time and money and try many things. Do you have pleasant enough your face and head, but you have build your face, self-esteem and self-confidence. Does it happen? Do you become beautiful?

Some beauty aids are available in the shop or drug store.

New Rule

Everyday and make your hair every day! Does it look good? Do you feel good? Do you look good?

Some people say that you should wear clothes that fit your body type. Does it work? Do you feel good?

Public to View First Electric Kitchen Supplies

While shopping for a home, corner windows, bathrooms and a real kitchen are attracting energy to Greater Cleveland and the modern home in the Cleveland Heights. Greater Cleveland Heights, greatest interest, has done its share in the all-electric kitchen.

This is Greater Cleveland's first modern apartments designed to have all-electric kitchen equipment. It will be open for public inspection Sunday and will be ready for occupancy as soon as possible. It will be particularly interesting to those interested in the all-electric home, as it has been designed, has 18 months and two tenant rooms.

Smaller Truman, architect, has put all possible into modern living rooms to make kitchen space as pleasant as possible. The kitchen is designed in a straight line, from the cabinet to the sink, all materials and appliances are in the kitchen, and the kitchen is divided.

Weber Materials, Inc., has afforded unprecedented opportunities because of its unusual ability to play music. The music room is completely equipped, including the complete set of instruments.

The Better Garden Club will conduct the open house.

Crippled Boy Tells How He Adjusts Self

By VIRGINIA LEE

To the Editor:

I am the boy to whom you refer in the article in your paper of February 12, as the crippled boy who needs a new knee prosthesis.

I wish to express my appreciation to the many friends who have written to me expressing their sympathy and encouragement. I have been through a very trying period, but I am now able to get along fairly well with the aid of my prosthesis.

I have been very fortunate to have had the opportunity to play baseball with my friends. I know, of course, that I could not run around the bases, but I did have a feel for the game.

I am grateful for the encouragement of my friends and for the efforts of the doctors who have helped me.

Sincerely,

Bampton To Be Groomed Soloist

The Bampton, distinguished oppositions-horse of the year, was featured in the grandstand at the Thoroughbred Club on Dec. 21 in Governor Hall.

The horse's school days were spent in the barns of the Fortas Institute of Music at the University of Illinois.

The horse was shipped to the track on the morning of Dec. 19 in a special box.

The Bampton is a native of the state of Illinois.

It is believed that the horse's success is due to its ability to adapt itself to various conditions, and that its training is conducted in a manner which brings out the best qualities of the animal.

Junior Little Gardens Club
To Judge Best Bulb Blooms

BUSINESS may be the main color of the evening for Junior Little Gardens club members next week but they'll also be thinking about the reason they're going to have to see who has the knack of raising the best bulbs. The club has the meeting at her house, 555 Eastman Ave., at 9 p.m. Monday. Student members of the club will be present and the meeting will include a judging of the best bulbs for the club and a contest of the best bulb for the school. There will also be a discussion of the different types of bulbs and their cultivation. The judging will be held on the basis of the following criteria: size, color, and the blooms. The winner will be determined by a panel of judges who will be selected from the club members. The meeting will conclude with a social hour where the members will have the opportunity to socialize and exchange ideas. The club invites all members and their guests to attend the meeting.
