"November is a month of great activity, a time when we all give thanks for all we have been blessed with. It's a time to reflect on the many blessings we have in our lives, and to remember the important role that gratitude plays in our daily lives. It's also a time to give back to those who have helped us along the way. Let's use this month to show appreciation for all that we have, and to spread kindness and love to others."

New Administration Takesover Transportation

Student Passes May Be Cheaper: Group Sponsors Plan for Carrying Pupils At No Cost to Parents.

One of the first problems to be tackled by the new city administration was the transportation of pupils. May-elect Kennedy J. Simms announced that a plan would be developed to make transportation free for all school children.

Details of the plan are being worked out by a committee of educators and transportation experts. The plan involves the use of city buses to transport students to and from school.

 ingresses. An event of great significance for the city, the opening of the new school is a milestone in the development of our community. The school will provide much-needed educational opportunities for our children.

Mayor Kennedy J. Simms, speaking at the ceremony, emphasized the importance of education and the role it plays in shaping the future of our city. "Investing in education is investing in our future," he said. "We must provide our children with the tools they need to succeed in life."

The new school is a testament to the commitment of our community to provide quality education for all our children. It is a symbol of our shared vision of a brighter future for our city."

Books In The News

By Jean Anderson, Shaker Librarian

Have You Heard?

James Earl Ray: "No Hearts to Break?" This is the story of Betty Fairchild, the Shaker girl who had an unrequited love for another girl. When she was married without the consent of her brother, Ralph, she discovered, too late, that she was pregnant. The story is told in a touching, dramatic way.

Mary Brooks Picken: "The Tale of Two Cities" is a novel about two cities, New York and San Francisco. It is a story of love and adventure, and it is well written.

Liselotte Altenburg: "All Fall" is a novel about a young girl who falls in love with a young man and is married to him.

The Alpine children: "We Are Born Again" is a story of the Alpine children who are born again.

Bedlings and Budgets

They're recalling in Washington that Pat Harrison of Harrisonburg was killed in a Senate double-up in their state when he bargained away the Jackson administration, on The Long-Life of the Frog. But now comes the Republican administration with a proposal for another whole new subject, The Habit and Life History of the Frog. And Pat Harrison himself, the present Times-Dipatch says editorially.

Students to Run In Medical College

The Cleveland Medical College has announced that it will be accepting students from the Cleveland Hospital School of Nursing. The hospital school nurse will have the opportunity to attend the medical college.

The Price of Speed

At everyone knows, speed is the great highway killer. The motorist who drives at an excessive speed endangers not only himself and his family, but the lives of others who share the streets and roads. He can be charged with "reckless driving" and face a fine of $50.

We Skip the Trivialities

We feel that if we were going to write a newspaper article on the subject of "Pain" and "Suffering," we would have to approach the topic in a unique way. We believe in being straightforward and honest, and we have always been able to do that. But we have never been able to do that on the topic of "Pain."
Collectors Arrange Antique Display

STANDS of our ancestors—folk songs and lore—are bringing a lot of their precious old things to the Carter County Courthouse in Mt. Vernon. The show, which is open for the first time this year, began on the 11th of this month and continues through the 16th.

The exhibit, which is a collection of various antiques from all over the state and the county, is displayed by their owners, as well as the first time since the exhibit began, all the exhibits of the Carter County Historical Society.

For your information, there will be some of these old things on display, as well as some of those that are not.

These include, but are not limited to:
- Various household utensils from the past
- Old farm tools and equipment
- Early clothing and textiles
- Photographs and documents from the history of the area
- Vintage books and manuscripts

The exhibit is free and open to the public, and is a wonderful opportunity to learn about the history of Carter County and its people.
